

Easy No-Sew Sock Owl

Supplies

- Scissors
- 2 socks (don't need to match)
- 1 -2 cups uncooked rice
- Rubber band
- No-Sew Fabric Glue
- Misc. Felt Pieces

****Optional****

- Cup
- Funnel
- Buttons

Steps

1. Fill one sock with 1 – 2 cups uncooked rice.
****Tip**** place sock inside an empty cup with the neck of sock flipped over the outside rim of the cup. This helps to keep the sock upright while filling. You can also use a funnel.
2. Place rice filled sock inside second sock to determine if more or less rice is needed.
3. Once you have the desired amount of rice tie off rice filled sock with a rubber band and cut away excess sock neck.
4. Cut the neck of the second sock in a “V” towards that opening of the sock. This will fold over and create the face of the owl.
5. Place rice filled sock inside of the second sock (I prefer rubber band end down towards the toe of the outside sock. Test to see how you would like to fold to look, trim as needed.
6. Once your owl looks the way you want it, use no-sew fabric glue to hold pieces together. Press for 30 seconds to create hold.
7. With felt pieces, cut eyes, wings and feet. Attach with no-sew fabric glue.
