

TABLETOP MINI GOLF GAME

You will need:

- Green felt
- sand colored felt
- yellow paper
- paintbrush
- wooden dowels
- green pipe cleaners
- various paint colors
- wooden ovals
- .5 inch marbles
- scissors
- black felt pen

Step 1: Sketch out your course.

Step 2: Cut out the shapes out of the green felt. Cut a half inch circle in the felt for the hole.

Step 3: Attach your extra hazards to the course: glue on mini log slices, rocks, or other tiny features. Cut out shapes from the sand colored felt to add sand traps.

Step 4: Glue the pipe cleaners around the edge of each hole.

Step 5: Glue the small wooden oval onto the end of a dowel so that it is at little more than a 90 degree angle.

Step 6: Paint the clubs. Cut the handle to the desired length.

Step 7: To make the flags, glue a small piece of pipe cleaner around the end of a dowel. Next, cut a two inch circle out of the green felt and glue the pipe cleaner end of the dowel into the middle of it.

Step 8: Wrap a one inch strip of yellow paper around the top of the flag and secure with glue. Cut into a flag shape and draw on the numbers with the felt tip pen.
